

**InfoComm Course Name:** Planar Mosaic Architectural Video Wall Certified Installer Training

**Sponsor:** Planar, a Leyard Company and Leyard

**CTS Renewal Units:** 2.5 CTS or CTS-I

### **Course Description:**

The Planar® Mosaic™ Architectural Video Wall Certified Installer Training Course is an introduction to the Planar Mosaic video wall product and is designed to prepare attendees for installation of the product. The course begins with a brief overview of the product, models and versions available, then moves into the content delivery and installation process including site preparation, mounting, manual color balance, alignment and commissioning of a video wall. The class also includes tips and tricks for a successful installation of the product. Upon completion of the course, attendees will become certified installers of Planar Mosaic Video Walls.

**Course Time:** 5 Hours

### **Learning Objectives:**

At the end of this program, attendees will be able to:

- 1) Recognize and understand the various models and options available the Planar Mosaic video wall product line and understand how each model affects the installation process.
- 2) Successfully physically install, program and align Planar Mosaic video tiles, cables and rack-mounted Power Supplies to create a custom architectural video wall solution.
- 3) Using Mosaic Project Designer™ software, design a video wall, translate it to the physical installation site, program video tiles and export PNG masks for use in custom content development.

### **Sponsor Information:**

Planar, a Leyard company, is a global leader in display and digital signage technology, providing premier solutions for the world's most demanding environments. Retailers, educational institutions, government agencies, businesses, utilities and energy firms, and home theater enthusiasts all depend on Planar to provide superior performance when image experience is of the highest importance. Planar video walls, direct view LED offerings, large format LCD displays, interactive touch screen monitors and many other solutions are used by the world's leading organizations in applications ranging from digital signage to simulation and from interactive kiosks to large-scale data visualization. Planar is headquartered in Oregon, USA and is a wholly-owned subsidiary of Leyard Optoelectronic Co., Ltd (China: Shenzhen 300296), a global leader in display and visualization technologies with over 300 patents and marquee installations globally. For more information, visit [www.planar.com](http://www.planar.com).

Leyard Optoelectronic Co., Ltd. is a global leader in the design, production, distribution and service of digital displays, video walls and visualization products worldwide. Leyard is the market leader in fine pitch LED and offers indoor, outdoor, fixed and creative displays, as well as other ancillary and lighting solutions for the urban environment. Used in various applications, such as broadcast, sports arenas, stadiums, advertisement networks, retail digital signage, control rooms, exhibitions, large scale events and digital cultural experiences, Leyard enjoys marquee installations globally. Leyard was founded in 1995 and is traded on the Shenzhen Stock Exchange (stock code: 300296). Planar Systems was acquired by Leyard in 2015.
