Products on Display

Join Planar, a Leyard company, for LED video wall product and technology demonstrations and educational trainings at our New York City LED Video Wall Open House and Educational Event.

The Planar New York City Event is an opportunity for consultants, integrators, designers and end users to meet and explore the variety of applications and innovations around direct view LED video wall technology.

At the NYC Event, Cyviz control solutions products and staff will be on-hand to demonstrate and discuss their solutions.

Planar DirectLight LED Video Wall System

The Planar® DirectLight™ LED Video Wall System is a family of seamless, ultra-fine pitch direct view LED video walls that provide a superior visual experience, and 24x7 reliability tailored to your unique indoor environment.

Leyard TW Series

The Leyard® TW Series is a line of fine pitch LED video walls with a unique "flat panel" design that features a 16:9 form factor, ease of installation and service, and outstanding flatness uniformity.

Leyard TVH Series

The Leyard® TVH Series is a line of high performance, fine pitch LED video walls available in 1.6, 1.9 and 2.5 millimeter pixel pitches deliverign industry-leading image quality and features an advanced design offering high reliability for a range of demanding indoor applications.

Clarity Matrix LCD Video Wall System

This immersive, flexible video wall combines the industry's thinnest profile ultra-narrow bezel LED LCD with improvements in design, installation and service, delivering on its reputation as the best-in-class LCD video wall solution.

Planar UltraRes Series

The next-generation Planar® UltraRes™ Series is a line of 75", 84" and 98" Ultra HD displays that offer enhancements in multi-source viewing, 4K video support and more!

Planar LookThru OLED

The first-of-its-kind Planar® LookThru™ OLED transparent display is a selfemitting display that utilizes cutting-edge Organic Light Emitting Diode (OLED) technology to eliminate the need for a backlight or enclosure, making it possible to create truly see-through installations.
