

Course Name: Clarity VCS Video Wall Processor Certified Installer Training

Sponsor: Planar, a Leyard Company and Leyard

CTS Renewal Units: 4.0 CTS or CTS-I

Course Description:

The Clarity VCS Video Wall Processor Certified Installer Training Course is an introduction to the Clarity® Visual Control Station™ (VCS™) Video Wall Processor and is designed to prepare attendees for installation of the product. The course begins with a brief overview of the product, models and versions available, then moves into the installation process including mounting, source routing set-up and software configuration. Upon completion of the course, attendees will become certified installers of the Clarity VCS Video Wall Processor.

Course Time: 8 Hours

Learning Objectives:

At the end of this program, attendees will be able to:

- 1) Recognize and understand the Clarity VCS Video Wall Processor, the options available and how each option affects installation and design.
- 2) Design and configure Clarity VCS Video Wall Processor using the Clarity® VCS™ Calculator Tool.
- 3) Physically install VCS™ Control Software for set-up, configuration and networking to single and multiple video walls.

Sponsor Information:

Planar, a Leyard company, is a global leader in display and digital signage technology, providing premier solutions for the world's most demanding environments. Retailers, educational institutions, government agencies, businesses, utilities and energy firms, and home theater enthusiasts all depend on Planar to provide superior performance when image experience is of the highest importance. Planar video walls, direct view LED offerings, large format LCD displays, interactive touch screen monitors and many other solutions are used by the world's leading organizations in applications ranging from digital signage to simulation and from interactive kiosks to large-scale data visualization. Planar is headquartered in Oregon, USA and is a wholly-owned subsidiary of Leyard Optoelectronic Co., Ltd (China: Shenzhen 300296), a global leader in display and visualization technologies with over 300 patents and marquee installations globally. For more information, visit www.planar.com.

Leyard Optoelectronic Co., Ltd. is a global leader in the design, production, distribution and service of digital displays, video walls and visualization products worldwide. Leyard is the market leader in fine pitch LED and offers indoor, outdoor, fixed and creative displays, as well as other ancillary and lighting solutions for the urban environment. Used in various applications, such as broadcast, sports arenas, stadiums, advertisement networks, retail digital signage, control rooms, exhibitions, large scale events and digital cultural experiences, Leyard enjoys marquee installations globally. Leyard was founded in 1995 and is traded on the Shenzhen Stock Exchange (stock code: 300296). Planar Systems was acquired by Leyard in 2015. For more information, visit www.leyard.com.
