

The Planar® PUD3200 is a USB3.0 universal docking station that allows users to quickly connect to a host of devices and peripherals through one USB cable. The dual display dock enables users to simultaneously connect two displays via HDMI and DVI, with video output up to 2048 x 1152. It also provides Gigabit Ethernet port, audio in/out for speakers or headphones, and two USB3.0 ports (one can charge at 5V/2A), and four USB2.0 ports for keyboard, mouse, printer, speakers, hard drives, and other USB devices. The built in Kensington lock slot helps secure the dock in place.
