

Why Planar Network Displays Powered by Wyse®?

Any of these Sound Familiar?

- I have very few IT resources managing multiple remote locations.
- I have space issues and need to have the thin client integrated with the LCD.
- I need to run full motion video with no smearing on my thin client.
- I need to put a thin client and LCD onto a swing arm or a wall, but don't have room for two boxes.
- I only want one power supply and no extra cables.
- I have remote users who need to set up their own equipment but they aren't technically savvy.
- When experiencing technical issues I only want to troubleshoot one product from one vendor.
- I can't afford to have downtime so I need a replacement unit FAST!

If So... Integrated Network Displays
is the solution.

Benefits of Integrated vs. Separate Components

SPACE-SAVING

- Space- footprint is the same as standard Planar 17" and 19" desktop LCD monitors
- Single power supply and no additional cables

LABOR-FRIENDLY

- Effortlessly mounts to a swing arm or wall
- Ease of installation - No configuration, reduced labor costs

MAINTENANCE AND SUPPORT

- No need to trouble shoot components
- Ability to hot swap for optimum up-time
- 3-Year, 2-Day Advance Replacement Warranty

- Integrated thin client and LCD in one space-saving package!
- 17" or 19" LCD with SXGA resolution and integrated speakers
- Ideal for healthcare, retail/POS, government/ education, call centers, financial institutions, large enterprises
- Wyse Thin O/S is 6x the performance of Windows CE running on the NetClient platform
- Backed by Planar's 3-Year Customer First™ Warranty featuring FREE 2-Day Advance Replacement and 90 days of software upgrades!

Get Integrated.
