Thank you for choosing Planar’s 15” PT1510MX resistive touchscreen monitor.

Customer Service:
To view online documentation and frequently asked questions, or to send an email to our technical support staff, please visit: http://www.planar.com/support or call 1-866-PLANAR1 (1-866-752-6271).

To receive advanced notification of product updates, please register your monitor at www.planar.com/support.

Planar is one of the world’s most accomplished providers of flat-panel displays, with over 20 years’ expertise in flat-panel innovation. The company provides the most dependable display solutions for various applications in industrial, medical, and commercial markets. Each Planar touch LCD monitor comes standard with our 3-Year Customer First™ Warranty featuring FREE 2-Day Advance Replacement.

Monitor Set-up
1. If it is necessary, clean the front surface of the display by using clean, compressed air or by using only a clean, dry, soft cloth.
2. Connect the video and power cables.
3. Read the Touch Set-up section prior to powering up the computer.

Touchscreen Set-up - To receive advanced notification of product updates, please register your monitor at www.planar.com/support.

Please note: The PT1510MX comes with both RS-232 and USB connections. If you’re using the RS-232 connection follow the instructions below:

1. Be sure that the RS-232 cable is disconnected from the computer.
2. Power on the computer.
3. Load the Touch Screen Driver CD.
4. Follow the step-by-step instructions for the PT1510MX as found in the Touch Screen Driver Installation Manual located on the CD.
5. Reconnect the RS-232 cable between the computer and monitor prior to use.

If you’re using the USB cable follow the instructions below:

1. Be sure that the USB cable is not connected to the PC.
2. Load the CD.
3. Follow the step-by-step instructions for the PT1510MX as found in the Touch Screen Driver Installation Manual located on the CD.
4. Reconnect the USB cable between the computer and monitor prior to use.
5. If the touch screen isn’t active, simply reboot your system.

PLEASE NOTE! Don’t plug in both the RS-232 and USB cables! This will cause your touch screen not to work due to driver conflict.

Warning! Don’t plug in both the RS-232 and USB cables! This will cause your touch screen not to work due to driver conflict.
