

LO55 Platform Cover for Planar® LookThru™ OLED Transparent Display

- Assemble the LO55 Platform Cover components (Planar PN 955-0595-XX) as shown in the inverted view above. The platform posts and magnetic feet are to be threaded fully into the mounting studs.
- Use care in handling the magnetic feet – the magnets are strong and a pinch between two magnets or a magnet and a ferrous material can be painful.

- The illustration above shows the LO55 Platform Cover in place.
- The leveling feet can be used to adjust the height or parallelism of the cover surface.
