PRODUCTS ON DISPLAY

Planar DirectLight X LED Video Wall System

With the off-board Planar® Video Controller, Planar® DirectLight® X becomes the industry's first LED video wall solution to embed advanced video processing directly into the product. Planar DirectLight X supports a range of fine pixel pitches and includes industry-leading wall mount, full front service access, a mission-critical design for 24x7 reliability and modern, web-based control and management software.

Planar TWA Series LED Video Wall

Planar® TWA Series is a line of fine pitch LED video walls available in 0.9, 1.2, 1.8 and 2.5 millimeters pitches. Planar TWA Series is architected to support the highest pixel density and delivers benefits unique to its "flat panel" design including a 16:9 form factor optimized for the most popular high resolution standards, ease of installation and service, and outstanding flatness and uniformity.

Planar CarbonLight LED Displays

Planar® CarbonLight™ LED Displays are a comprehensive line of LED display solutions designed specifically for rental, staging and fixed-flexible installations. With a broad range of models, Planar CarbonLight LED displays deliver a wide range of unique LED display solutions for eye-catching, creative public venue installations.

Planar TVF Series LED Displays

The Planar® TVF Series is a family of fine pitch LED video wall displays available in 1.5, 1.8 and 2.5 millimeter pixel pitches. Giving a new meaning to multi-functionality and quick installation, the Planar TVF Series offers front serviceability and a creative stackable design that eliminates cabinet-to-cabinet cabling and reduces the complexity of installation and vertical alignment.

Clarity Matrix G3 LCD Video Wall System

The Clarity® Matrix® G3 LCD Video Wall System delivers the ultimate LCD video wall solution. The award-winning, Clarity Matrix G3 combines the industry's thinnest profile ultra-narrow bezel LCD's with industry-leading improvements to video processing, installation, management and off-board electronics, to deliver a next-generation video wall solution.

eyevis TRP Series Rear Projection Video Wall

The eyevis™ TRP Series is the industry's first DLP® rear projection video wall line based on Texas Instrument's Tilt & Roll architecture, delivering high brightness with lower power consumption. Available in 50" or 60" sizes with Full HD resolution the eyevis TRP Series provides sufficient brightness for most applications with a power consumption of less than 70 watts—setting a milestone in DLP® rear projection display technology.

Planar UltraRes Series 4K LCD Displays

The Planar® UltraRes™ Series is a line of 75", 86" and 98" Ultra HD resolution (3840 x 2160) professional LCD displays with best-in-class image and color quality for native 4K and upscaled content. Planar UltraRes Series displays offer superior performance with exceptional 4K clarity and advanced processing ideal for applications ranging from collaborative meeting spaces to high impact digital signage. Multi-touch models are also available.

Planar PS Series LCD Displays

The Planar® PS Series is a line of professional large format Full HD LCD displays that offer a full set of commercial-grade features with superior visual performance and is well-suited for demanding digital signage and corporate environments.

eyevis netPIX Video Wall Controller

eyevis™ netPIX Video Wall Controller is designed with high-quality server components to deliver sophisticated control of video wall systems with cutting-edge performance and 24x7 reliability. The eyevis netPIX Controller provides connectivity for almost any signal type with a range of input and output cards. With special IP decoding input cards or software-based decoding, the eyevis netPIX Controller can connect to IP video streams, removing the need for separate decoder devices.

Certified Training

Planar is committed to providing comprehensive product and technology training and offers a range of courses at our South Florida Showroom.
