

# Active Pen for HB Series Huddle Board Displays

## Active Pen (iPens)

Item	Specification
Part Number	998-2282-00
Button Style	Power On/Off
Power Source	Built in Li-on 105mAH/3.7V
Power Consumption	Working: 15.5mA(typical) Sleep: 2.9mA (typical) Power Off: 22 uA(typical)
Battery life	Continue use : Over 10 hours
Low Battery Indicator	1. Red LED flash every 3 second when Battery voltage <3.7V. 2. Red LED flash and power-off when Battery voltage <3.65V or button be pressed.
Power On/Off Control	On: Function Key pressed over 0.5 second. Off: Function Key pressed over 0.5 seconds and red LED on then release Function Key the LED off.
Charging time	80mA $\approx$ 1.5Hrs
Charge Status Indicator	Red LED On when in charging Blue LED On when end of charge
Charge Interface	Micro USB
Charge Power Source	USB +5V
Weight	14.2g $\pm$ 2g
Dimensional Outline	135.3 mm (L) $\times$ 9.5 mm (Dia.)
Operating Temperature	0 $\sim$ 45°C
Storage Temperature	-20 $\sim$ 60°C
Certification	CE , FCC, VCCI, RoHS
