

Planar FXO-2.9

High-Brightness Outdoor LED Video Wall Displays

Planar® FXO-2.9 is a high brightness LED video wall display with a 2.9 millimeter pixel pitch designed for outdoor environments such as building exterior signage or pool-side hospitality cinema. Planar FX Series features high brightness and high contrast, brilliantly showing your content even when the sun is out. Planar FX Series cabinets are 500x500 millimeters, full front service and designed for fixed installation, but can be hung or stacked using the same hardware. Cabinets endure the weather with LED treatments to protect them from ultraviolet rays, dust and water, without negatively impacting the viewing experience.
